THE NEW-YORK TRIBUNE.

THE TRIBUNE-now more than eighteen years old, and having er a quarter of a million of subscribers, or constant purchasers fused through every State and Territory of our Union—will diberty, Progress, and of whatever will conduce to our national growth in Virtue, Industry, Knowledge, and Prospecity. It will continue to arge the ensancipation not only of the Black ishore from chatterism and legal impotence, but of the White likewise from Land Monopoly, Intemperance, Ignorance, and that dependence on remote Markets which puralyzes exertion by denying to Toil any adequate and morally certain reward. Believing that evil of our time is the inordinate multiplication and dis ever tends to degrade Manual Labor, or deprive it of its just shift full recompense. It will infloxibly commend the policy of win-ning hither from Europe the Useful Arts, and, wherever they may be needed, the Artisans as well, for whose products our country is now running recklessly into debt, white our laborers roam in is now running recursory into dept, waite our incorers roam in fruitiess quest of employment, leaving their children in want of bread, though the farmer is too often compelled to sell his crops at most inadequete prices. In short, while battling against Fultbus-terism and every other manifestation of that evil spirit which neeks through the spaination of other countries that aggrandizement which is to be truly attained only through the due developement and cultivation of our internal resources, it will grantly advecate a more effectively discriminative Tarift, the Freedom of the Public Lands, the construction of a Railroad from the navigable waters of the Mississippi to those of the Pasific, and every other measure which seems to us calculated to enhance the dignity or the recompense of Labor, and promote the well-being of Mankind. The "irrepressible conflict" between Darkness and Light, Inertia and Progress, Slavery and Freedom, moves steadily onward. Isolated acts of folly and madness may for the moment give a seeming advantage to Wrong; but God still reigns, and the Ages are true to Humanity and Right. The year 1850 must witsoes a commonline conflict between those irreconcilable autaquistics. The are true to Humanity and Right. The year 1880 mind wheater memorable condict between those irreconciliable autagonists. The question—"Shall Human Slavery be further diffused by the power and under the flag of the Federal Union?" is now to re-serve a momentous if not a conclusive answer. "Land for the Landless, versus Negroes for the Negroisss," is the buttle-ory of the embedied Millions who, having just sweet Pennaylymia, Ohic and the North-West, appear in the new Congress, backed by nearly every Free State, to demand a recognition of every man's ries to Free Labor-two requirements, but one policy-
